

Student services

at The Royal College of Surgeons of England

committed to enabling surgeons to achieve and maintain the highest standards of surgical practice and patient care

Affiliate Scheme

The Affiliate Scheme offers benefits including selected bursaries, advance notice of events and courses, and a regular newsletter. The scheme is open to all UK medical students and pre-MRCS trainees.

Careers afternoons

Run twice yearly, these sessions are free to attend and offer careers and specialty discussions plus practical workshops including laparoscopy practise, suturing and knot-tying experience.

National student prize

The Professor Harold Ellis Medical Student Prize for Surgery is an annual competition for medical students of any level with an interest in surgery. Please see our careers website for details.

Museums

Medical students are able to use the **Wellcome Museum of Anatomy and Pathology** upon presentation of their medical school pass. Please contact the museum prior to visiting to check opening times.

The **Hunterian Museum** is a state-of-the-art, newly refurbished centre based at the College that holds John Hunter's collection. The Hunterian Museum is open Tuesday–Saturday from 10am.

Careers advice and support

We regularly attend careers fairs at universities and provide careers advice and support via email or phone. Our careers website is a useful source of information and features helpful careers case studies.

Women in Surgery (WinS)

WinS exists to encourage, enable and inspire women to fulfil their surgical ambitions. The network is free to join and aims to support women throughout their careers from medical student onwards.

Surgical Societies

The College actively supports student surgical societies through its Medical Student Liaison Committee. The committee helps facilitate the sharing of ideas and ensures students' needs are considered by the College.
